- Languages:** JavaScript, Python
- Frontend:** React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), Responsive Web Design, UI/UX Implementation, Cross-Browser Compatibility
- Backend:** Node.js, Express.js, REST API Development
- Database:** MongoDB, Mongoose ODM
- Tools:** Git, GitHub, Postman, VS Code, Netlify, Render
- Concepts:** JWT Authentication, Role-Based Access Control (RBAC), MVC Architecture, CRUD Operations, API Integration, Error Handling, Website Performance Optimization, ERP Application Development

Education History

Bachelor of Engineering in Computer Science Engineering
2022-2026
Chitkara University

Senior Secondary (Class XII) – CBSE
2021-2022
Saraswati Vidhya Mandir

Languages

- English
- Hindi

Profile Summary

Full Stack Developer specializing in the MERN stack with hands-on experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, frontend-backend integration, database design, and deployment. Passionate about building SaaS products and solving real-world business problems through technology.

PROJECT EXPERIENCE

Online Book Reading Platform <https://ilm-kosh.netlify.app> june 2023 - july 2023

- Developed REST APIs for user authentication and book management
- Implemented secure login and signup functionality using JWT authentication and role-based access control
- Designed CRUD operations for managing books and user data with MongoDB and Mongoose
- Integrated frontend and backend using Axios for API communication
- Deployed frontend on Netlify and backend on Render with environment configuration for production

Service Marketplace Platform <https://task-iva.netlify.app/> March 2026- May2026

- Developed an ERP-style MERN stack platform connecting customers, service providers, and administrators through a centralized management system.
- Built role-based dashboards for users, service providers, and administrators with secure JWT authentication and authorization.
- Implemented service provider onboarding, profile management, service tracking, and workflow management modules.
- Developed RESTful APIs using Node.js, Express.js, and MongoDB to manage business operations and platform data.
- Created reusable React components and a modular frontend architecture to improve maintainability and scalability.
- Designed responsive user interfaces using CSS Flexbox and Grid for a seamless cross-device experience.
- Integrated AI-assisted service categorization and recommendation features to enhance user engagement.
- Optimized application routing, API performance, and database operations for improved scalability and user experience.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs, Tailwind CSS, Git, Postman

Soft Skills

- Problem Solving
- Team Collaboration
- Communication Skills
- Requirement Analysis
- Time Management
- Adaptability
- Quick Learning
- Attention to Detail
- Leadership
- Client Interaction
